

# Archie

## Fun Dice

Play your favorite board games with these cool Archie dice!

1. For extra rigidity print this page on card stock paper, or glue page to construction paper before cutting out.
2. Cut out the die along the solid black outline.
3. Fold tabs on dotted lines.
4. Fold in the green and orange sides along the color edge.
5. Fold down the magenta flap and glue or tape tabs B and C to the bottom of it.
6. Next, fold under the purple flap and glue to tabs D and E.
7. Fold over lime-green section and glue or tape tabs F and G to the sides of the green and orange sections.

8. Glue the top of the lime-green section over the A tab to complete the die.
9. Repeat the process to make a second die. Use these dice in place of the ones that came with your favorite board game. If you prefer you can attach the two dice with a strand of yarn and hang them from Mom's rearview mirror. Cool!
