

Archie Football Cover

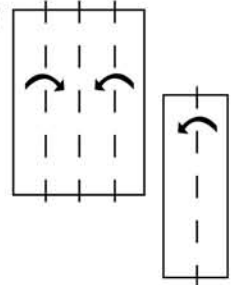

Archiecomics.com

## How to make your Archie Football

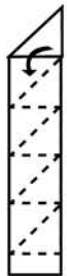

1. Fold an 8 ½ x 11 inch sheet of paper in half lengthwise.

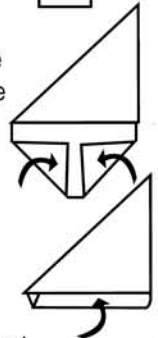

2. Unfold and then fold the two halves in towards the center. Then fold in half again to form a narrow bar.

3. Fold down one corner across the width of the paper to form a triangle. Fold this triangle over (Like you would fold a flag.). Continue until the bottom of the page.

4. With the rectangular piece that's left over, fold in the corners. Then slide this piece into the flap on the triangle shape.

5. Next fold the Archie Football cover on the dotted line in the middle and glue or tape over your football.

### Assembling the Goalpost:

Glue the goal post shape to construction paper or card stock before cutting out completely. Cut out the goal post and fold in the middle, gluing or taping the two sides together. Fold the two green stands on the dotted lines and tape them to the table or desk to keep your goalpost upright.

### To play:

Hold the football upright by balancing it between the tabletop and the tip of your index finger. Use your other hand to thump the football through the goalposts!
